## -CHAMPAGNE-

Champagne is a sparkling wine originated and produced in the Champagne wine region of France under the rules of the appellation that demand specific vineyard practices, sourcing of grapes exclusively from designated places within it, specific grape-pressing methods and secondary fermentation of the wine in the bottle to cause carbonation. The grapes Pinot noir, Pinot Meunier, and Chardonnay are used to produce almost all Champagne.

## -ALSACE-

*Alsace wine region is in the northeast part of France on the border with Germany and Switzerland. To the west, the Alsace region has Champagne and Burgundy wine regions and to the south, Jura, and Savoie. It is famous for its Rieslings and Gewürztraminers.*

2017 Pinot Gris Reserve Personelle, Trimbach £143

2010 Riesling de Rorschwihr Cuvée Yves, Vendanges Tardives,  
Domaine Rolly Gassman £160

2014 Riesling Cuvée Frédéric Emile, Trimbach £231

## -BURGUNDY-

*Burgundy wines have long been renowned as some of the greatest, most refined wines in not just Europe, but the world. Though the Burgundy wine region map will show you that the wine-producing area is much smaller than many others in Europe, there is no denying that wine from Burgundy is "as good as it gets"!*

2022 Chablis Domaine Corinne Perchaud £88

2022 Pouilly-Fuissé, 'Clos Marie' Domaine la Soufrandise £139

2021 Chablis 1er Cru Fourchaume, Domaine Roy £172

## -LANGUEDOC-ROUSSILLON-

*Languedoc-Roussillon wine, including the vin de pays labelled Vin de Pays d'Oc, is produced in southern France. While "Languedoc" can refer to a specific historic region of France and Northern Catalonia, usage since the 20th century (especially in the context of wine) has primarily referred to the northern part of the Languedoc-Roussillon région of France, an area which spans the Mediterranean coastline from the French border with Spain to the region of Provence. The area has around 700,000 acres (2,800 km<sup>2</sup>) under vines and is the single biggest wine-producing region in the world, being responsible for more than a third of France's total wine production.*

2021 Picpoul de Pinet, Domain de belle Mare £58

2021 IGP Côtes Catalanes Calcinares,  
Domaine Gauby £121

## -PROVENCE-

*Provence is blessed with a fantastic climate, especially for grapes! The region gets lots of sunshine and not too much rain with warm days and cool evenings. The Mediterranean moderates the temperatures, and the famous "Mistral" wind keeps the vineyards dry, free of pests, and the skies clear. The geography is diverse with numerous mountain ranges that texture the landscape providing gentle slopes (vines love hills!) and sheltered valleys. The soils are diverse as well. The western countryside is veined with limestone, where the land was covered in ancient times by a warm, shallow sea. Travel east, and the soil is mostly crystalline schist (granite) and volcanic in one small area.*

2020 Love By Leoube, Domaine Leoube £95

2021 Château Sainte Marguerite, Symphonie £9105

2022 Château Leoube £116

## -BEAUJOLAIS-

*The wine takes its name from the historical Province of Beaujolais, a wine-producing region. It is located north of Lyon, and covers parts of the north of the department of Rhône, the Rhône-Alpes region and southern areas of the department of Saône-et-Loire, in Burgundy. While administratively considered part of the Burgundy wine region, the climate is closer to that of the Rhône, and the wine is sufficiently individual in character to be considered apart from Burgundy and Rhône. The region is known internationally for its long tradition of winemaking, for the use of carbonic maceration, and more recently for the popular Beaujolais nouveau.*

2021 Fleurie, La Bonne Dame, Louis Tête £ 84

2022 Fleurie "Indigene", Domaine Grégoire Hoppenot £128

## -BORDEAUX-

*The Bordeaux region is naturally divided by the Gironde Estuary into a Left Bank area which includes the Médoc and Graves and a Right Bank area which includes the Libournais, Bourg and Blaye. Both red and white Bordeaux wines are almost invariably blended. The permissible grape varieties in red Bordeaux are: Cabernet Sauvignon, Merlot, Cabernet Franc, Malbec and Petit Verdot. While wine making styles vary, a rule of thumb is that the Left Bank is predominantly Cabernet Sauvignon based with the Right Bank being more Merlot based. The Graves area produces both red wine (from the grapes previously mentioned) and white wine from the Sauvignon blanc, Sémillon and Muscadelle grapes. The area of Sauternes (including Barsac) is known for its botrytized dessert wines.*

## -RHÔNE VALLEY-

*Often divided between its northern and southern climes, the Rhône Valley is associated with both the purity of Syrah in the cooler northern appellations of Côte Rôtie and Hermitage.*

*In warmer, more southerly, latitudes Syrah is a blending component (often with Grenache and Mourvèdre) in Châteauneuf-du-Pape and the Côtes du Rhône.*

*It is a key wine-producing region in the southeast of France. It follows the north-south course of the Rhône river for almost 240km (150 miles) from Lyon to the Rhône Delta (the "Bouches-du-Rhône") on the Mediterranean coast.*
